HOW I WORK

Fixed scope before code
Weekly progress updates
Production-grade testing
Support after launch

EDUCATION

Patna University
Bachelor's Degree

OPEN TO

Senior engineering / tech leadership roles, and building software, SaaS and websites for businesses.

SUMMARY

I build software that runs real businesses — AI-powered SaaS, ERP/CRM systems and web & mobile products that are live in production, not mockups. 12+ years in software: from Java and PHP in Patna, to enterprise backends at Al Bassami Group (Jeddah, Saudi Arabia), to leading technology today as Tech Head at Coach Easily and as Founder of KVL Business Solutions.

EXPERIENCE

AI Software Engineer — Tech Head
Aug 2026 – Present

Coach Easily · Mahim West, Mumbai

- Leading technology development and technical problem-solving across applications.
- Building AI-powered tools, workflow automation and system integrations.
- Improving application performance, user experience and platform reliability.
- Working with cross-functional teams to resolve issues, streamline workflows and support business growth.

Founder
Feb 2022 – Present

KVL Business Solutions · Patna, Bihar · MSME-registered

- Founded and lead a software & automation company serving businesses across India — 18 live products and websites built.
- Architected a multi-provider AI failover platform that keeps lead scoring, chat and voice outreach running without downtime.
- Deliver custom ERP, CRM, HRMS and SaaS for healthcare, education, restaurant, real estate, manufacturing and government clients.
- Own the full lifecycle: discovery, fixed-scope planning, design, development, testing, deployment and 1-year support.

Software Engineer
May 2019 – Jan 2022

Self-Employed — Freelance · Delhi, India

- Delivered custom websites, web applications and business software for clients across industries.
- Built responsive sites, integrated APIs, optimized performance and provided ongoing maintenance and support.

Software Engineer
Apr 2017 – Aug 2018

Al Bassami Group · Jeddah, Saudi Arabia

- Developed enterprise software and backend systems to streamline business operations.
- Designed and maintained secure REST APIs, databases and server-side applications for performance, scalability and reliability.

Mobile Application Developer
Feb 2016 – Jan 2017

LYQA · Patna, Bihar

- Built high-performance Android and iOS apps — UI/UX, API integration, performance optimization and secure backend connectivity.

EXPERIENCE (CONTINUED)

Get IT Project Pvt. Ltd.

Jan 2013 – Dec 2015

Patna, Bihar · 4 roles

Networking Engineer (Training) · Apr–Dec 2015 — LAN, hardware, router configuration, Windows Server basics

Web Developer · Jan 2014–May 2015 — PHP & MySQL web apps, database design, deployment, cPanel & hosting

PHP & MySQL Trainee · Jun–Dec 2013 — PHP, MySQL, HTML, CSS, JavaScript

Java Developer Trainee · Jan–Jun 2013 — Java, Oracle, SQL, PL/SQL, Library Management System

WHAT I BUILD

AI Agents & Automation
Lead qualification, proposal drafting, outreach and self-training website chatbots, with multi-provider AI failover.

SaaS & Multi-tenant Platforms
Admin panels, subscriptions, billing, analytics and real-time monitoring.

ERP / CRM / Custom Software
HRMS, School ERP, Hospital Management, Restaurant POS, GPS & fleet tracking.

Websites & Mobile Apps
Android, iOS and Flutter — fast, SEO-friendly and mobile-first.
